Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Election/Restrictions

[1] Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-62, drawn to a method, and/or a method or operating a computer system for a producing request list components, past-due request list summary, and a immediately-due request summary, classified in class 705, subclass 10 (705/4).

II. Claims 63-124, drawn to a program operating system and a computing system for producing request lists, past-due request list summary, and a immediately-due request summary, classified in class 705, subclass 2 (705/2).

[2] The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I does not require involvement from a first group member because the first group member's function or involvement is not required by the body of

the claim. Applicant's recitation of a "first group member" in the preamble of claim 1 does not constitute a requirement by claim 1 for participation in the claimed invention. Invention II is directed to a program operating system and computing system that functions based on commands/input by a first group member. Accordingly, Invention II has separate utility as a computerized arrangement utilized by a participant who is uninvolved in the method steps recited by method claim 1.

[3] Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and/or because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

[4] Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

[5] Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(h).

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert D. Rines whose telephone number is 571-272-5585. The examiner can normally be reached on 8:30am - 5:00pm Mon-Fri.
